Summary

Data Scientist with a Bachelor's degree in Data Analytics, concentrating in Big Data Analysis. I have helped companies with forecasting future events such as sales and inventory, building dashboards in numerous technologies, and developing machine learning models to enhance the use of data in business contexts. I am interested in machine learning, data visualization, and statistical modeling.

Work Experience

Gulfstream Aerospace Corporation

Savannah, Georgia, USA

DATA SCIENTIST

Jan. 2020 - May. 2020

- Lead sales forecasting efforts, achieving 90%+ accuracy for quarter over quarter forecasts.
- Managed a data transport project that ingested over 100GB/mo. of sensor data to long term storage for future machine learning projects.
- Performed exploratory machine learning projects to evaluate efficacy of predictive maintenance business models.
- Developed dashboards in Power BI that delivered a variety of KPI's to different internal customers.

Florida Polytechnic University

Lakeland, Florida, USA

DATA SCIENCE EDUCATION ASSISTANT

Sep. 2019 - Dec. 2019

- Advanced Quantitative Methods QMB3200 tutor and grader.
- Mentored student with tasks in R and Stata; debugging regressions, data preparation, analysis interpretation.

Gulfstream Aerospace Corporation

Savannah, Georgia, USA

DATA SCIENCE INTERN

May. 2019 - Aug. 2019

- Assisted in building investigative machine learning models which utilized over 50,000 unique aircraft sensors. The models were used to help debug malicious interactions in sensor busses.
- Developed pipelines to collect 100+ different macroeconomic variables to be used in sales forecasting. The process was entirely automated and validated data continuously.
- Kick started sales forecasting efforts using auto-regressive distributed lag models to predict quarterly sales. Models were cross validated with 90%+ accuracy.
- Performed exploratory data analysis on different customers to define high value targets for the sales team. Finding were presented to both marketing and sales teams. The consequent quarter broke company sales records.

Yes.Fit

Lakeland, Florida, USA

DATA ANALYST

Mar. 2018 - May. 2019

- Automated inventory reporting reducing labor hours for inventory planning by a factor of 2.
- Authored reports on customer behaviour and advertising effectiveness to guide leadership with optimizing advertising expenditure.
- Spearheaded an effort to build dashboards to deliver real-time analytics to the leadership teams.
- Forecasted inventory needs with over 95% accuracy consistently for a variety of products and promotions.

Education

Florida Polytechnic University

Lakeland, Florida, USA

B.S. IN DATA ANALYTICS, CONCENTRATION IN BIG DATA ANALYTICS

Aug. 2016 - Dec. 2019

- Student Government Senate President.
- Co Founder and President of Data Analytics and Data Science Club.
- Outstanding New Leadership Award Recipient.
- Order of the Phoenix Award Recipient.

Skills

Programming

Python, R, Bash, \LaTeX , Julia, SQL, Docker, Git, Linux, Github

Dashboards and Presentation

Shiny, Dash, Streamlit, PowerBI, Klipfolio, Domo, R-Markdown, Jupyter

Machine Learning Libraries & Tools

sklearn, fable, pytorch, caret, tidymodels, prophet, NLTK, tidytext, pandas, numpy

Languages

English (Native), Afrikaans (Native), Swedish (Beginner)
